**MR. ROLAND YODER**

*Interesting pieces of art work, the atmosphere of a palace garden for our Junior-Senior Banquet, and the redecorated office are the evidence of your artistic talent. Your interest in science is not only shown in the classroom, but also by your promotion of the Audubon Lecture Series. For our class you have sacrificed much time and energy, for which we shall always be grateful*

*So, to you, Mr. Yoder, we, the class of 1907, dedicate our yearbook in appreciation for the interest you have shown in us*

# SHIRLEY WEAVER

*(continued)*

Mr and Mrs

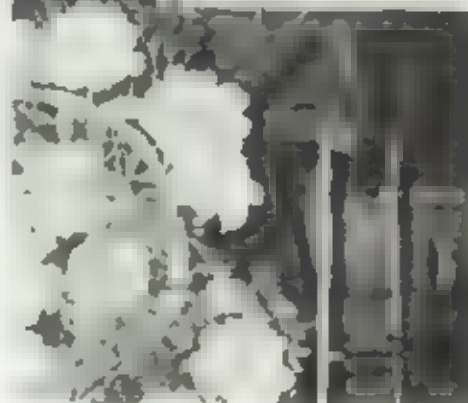

A black and white portrait of a woman, likely the artist, standing and wearing a light-colored dress. The image is framed by a dark border.

A black and white portrait of a young man, likely a student, wearing a dark suit jacket, a white shirt, and a dark tie. He has short, dark hair and is looking directly at the camera with a slight smile. The background is a plain, light color.

## GRADUATION 1966

[illegible]

1. The first part of the paper is devoted to the study of the asymptotic behavior of the solutions of the system (1) as  $t \rightarrow \infty$ . It is shown that the solutions of the system (1) are bounded and tend to zero as  $t \rightarrow \infty$  if the matrix  $A$  is stable and the matrix  $B$  is positive definite. The second part of the paper is devoted to the study of the asymptotic behavior of the solutions of the system (1) as  $t \rightarrow \infty$  if the matrix  $A$  is not stable. It is shown that the solutions of the system (1) are bounded and tend to zero as  $t \rightarrow \infty$  if the matrix  $A$  is not stable and the matrix  $B$  is positive definite.

$$\begin{aligned} & \{t_1, \dots, t_n\} \subseteq \{t_1, \dots, t_n\} \text{ and } \{t_1, \dots, t_n\} \subseteq \{t_1, \dots, t_n\} \\ & \text{and } \{t_1, \dots, t_n\} \subseteq \{t_1, \dots, t_n\} \text{ and } \{t_1, \dots, t_n\} \subseteq \{t_1, \dots, t_n\} \end{aligned}$$
